

Study tour to Vienna

(October 2008)

Milenko Radovanov
Head of “Vodovod i Kanalizacija” unit
PUC “Standard”, Vrbas

Budva, 10. decembar 2008.

“ A picture is worth 1000 words “
Chinese proverb

(We) Arrived to Vienna

Found the hotel and nearby restaurant

Without wasting a minute more, went sight seeing

During the “Working days” we had only nights free , so photos are mostly night ones

And more beauties of Vienna...

The days were reserved for visiting the sites we came for ...

Study tour enabled us to visit the following facilities/industries :

- “NOM” dairy industry ;
- Waste Water Treatment Plant (WWTP) Bad Vooslau;
- Communal Waste Collection center of Vienna;
- Sugar factory Leopoldsdorf;
- CWWT Plant City of Vienna ;
- Lectures in Austrian EPA ;
- Hazardous and communal waste Incinerators

City of Vienna .

The days were reserved for visiting the sites we came for ...

Last evening and departure

Lessons learnt and experience gained

Sugar mill Bačka 1918

Sugar mill Leopoldsdorf 1910

There are similarities, and significant differences

Sugar mill Bačka

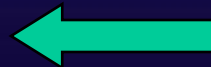

Sugar mill Leopoldsdorf

Cooling towers for cooling and recirculation of water

Sugar mill Leopoldsdorf

Sugar mill Bačka

Sedimentation ponds

Sugar mill Leopoldsdorf

Sugar mill Bačka

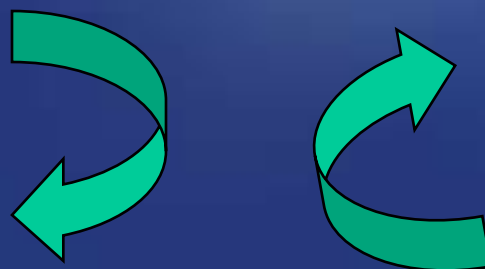

Aeration basins for waste water oxygenation

**Sugar mill
Bačka**

**Sugar mill
Leopoldsdorf**

Lagoons

**Sugar mill
Bačka**

**Sugar mill
Leopoldsdorf**

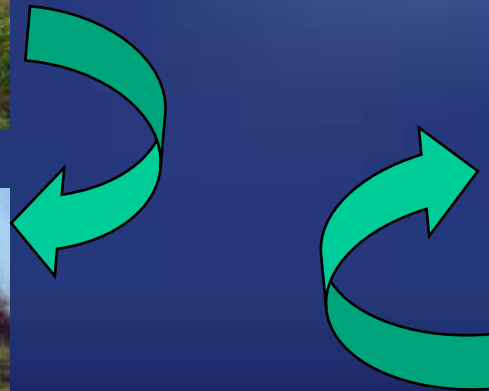

Central Waste Water Treatment Plant of Vrbas and Bad Voeslau

(150000 population EQ)

**Location of
future CWWTP
of
Vrbas**

**Example
plant
Bad Voeslau**

Conclusion

Significant part of what we saw during study tour to Vienna we shall have the opportunity to apply in recent future in Vrbas after the Remediation of Grand Backa canal project.

The most important is that we (PUC Standard) get ready for management and maintenance before taking over CWWTP of Vrbas and Kula

Thank you !
